

## MEMO

Labor, input costs, feed, etc. are all challenging in my operation.

### Where do I head?

- At **Spencer Herefords** we have bred cattle for 10 years focused on fast, early growth, moderate mature size, thickness and lower birth weights.

We also prioritize REA and Marbling and easy fleshing calves with rib and dimension.

*These priorities aren't a recent inspiration — they've been our foundation and commitment!*
